About the State

Rev. D. G. Guest has resigned as pastor of the Methodist Church in Coventry and will go to Alberta, Can.

C. H. Farnsworth of Montgomery Center was quite badly injured last week on a hay loader. Three ribs were broken.

Charles Fletcher of West Burke, who recently celebrated his 84th birthday anniversary, is a great fisherman, having caught nearly 600 brook trout so far this season.

The town of Sheldon, the first town in the state to report having completed building its permanent highway for this year, was, therefore, the first to receive its share of the state highway tax, which amounted to \$430.00.

While James Hamilton was putting on tarred roofing in Albany, Vt., recently, he slipped and fell a distance of nearly 20 feet. A ladder partially broke his fall, but he was badly bruised and it is thought a bone was broken in his ankle.

Mr. and Mrs. Andrew McGaffey celebrated the 55th anniversary of their marriage Wednesday at their home in Burlington. Mr. McGaffey is a veteran of the Civil war and has conducted a harness shop in Burlington for the past 45 years.

As a team driven by Thomas Ambrose and Dennis O'Hara was passing an automobile in Wallingford Wednesday, the frightened animal stepped close to the road edge and onto a decayed timber, which gave way, and horse, carriage and men rolled down the bank. Mr. Ambrose's collar bone was broken and the carriage somewhat demolished.

Rutland's ice crop is holding out well this summer, in spite of the excessive heat. One firm cut 8000 tons and it is about half gone. The firm supplies customers in Rutland and Proctor, furnishes ice for the milk car that runs daily to Boston and expects to send ice to Eagle Bridge, N. Y., and Burlington later on.

Representatives of the New York Milk company have purchased a tract of land at Salisbury and will begin at once the construction of a sterilizing plant, such as was erected in that village one year ago. This company intends to erect four new plants along the Rutland railroad between that village and Bennington. The work of erecting the plant at Salisbury will begin at once.

Elbel, 12-year-old daughter of Mr. and Mrs. Isaac Eggleston of Rutland, who had been missing about a week, was located Sunday by Sheriff E. C. Fish at the Glenwood hotel in Castleton. The girl's parents went to Castleton, N. Y., a short time ago, leaving Elbel with her grandmother. On the evening of July 17, Elbel left the house and has not been seen since until found at Lake Bomoseen. She was working as dishwasher.

The big plant of the Parks Paper company of Fitchburg sent out its first carload of paper a few days ago. Sixty-five hands are now employed, in two shifts, the plant working night and day, the mill having a capacity of forty tons of newspaper in roll daily. The present output is sent to Boston for use in the Daily Post. The pulp mill was started this week and a sulphite mill will be built in the near future. The company is capitalized at \$500,000 and has \$350,000 in bonds, and its property comprises the mills and valuable water power of the Connecticut and some 600 acres of land in Essex county, Vermont, and Coos county, New Hampshire, besides holding an option on 2800 acres. In one pile, the company has 8000 cords of pulp wood and enough more in the woods ready for shipment to furnish the mill with a year's supply, when running at full capacity.

A MOST UNHAPPY CAT.

Everything and Everybody in Conspiracy to Make him Miserable.

Nebuchadnezzar was the unhappiest cat in Christendom, and there was some reason for it. He felt very much as if he were imprisoned in a wire cage, just like the poor canary bird.

And that bird was part of it. Having an acute sense of hearing, the song of this feathered nuisance disturbed Nebuchadnezzar to the bottom of his being. In plain, unvarnished, up-to-date English, it made him sore.

Time after time he'd tried to get that bird, but they'd made the cage strong enough to keep a tiger out, and the last time some one caught him climbing up, and wadded him with a barrel stave.

Then grandma was so blamed deaf that it was an outrage. Nebuchadnezzar raged about it. She had slammed the pantry door on his tail, and when he reminded bitterly about it she thought someone was calling her and left him there.

Then underneath the refrigerator was the nastiest place to sleep. They had a dishpan put under the refrigerator to catch the dripping ice water, and in summertime all a cat had to do was to curl right up against it and sleep in peace.

Then they got careless about the pen, and one night it overflowed and deluged him, giving him a bad cold, and making him so hoarse he couldn't attend the annual concert of the Nocturnal Felines' Back-Fence Joy club. And he had been counting on going.

Nebuchadnezzar had other griefs, too. How was he to know that milk in a crock on the table was different from milk in a saucer on the floor? It wasn't right to hit him with a pan when he made such a mistake.

Altogether Nebuchadnezzar was unhappy. He ailed, he loafed about and got stepped upon, and was generally so disagreeable that they decided he needed a tablespoonful of castor oil. And he got it.

But who paid for it, he confound them! Nebuchadnezzar bit and scratched, and the man who had the spoon said things he ought not never have said in the presence of children, and wiped the blood off his hand on his best trousers.

But even this didn't make Nebuchadnezzar happy. He went back in the yard and lay down under the gooseberry bush and wished he were dead.

But what? What's the use of a cat wishing that? If he got his wish, he'd have to get eight more. Galveston News.

ODD CLOTHING MATERIALS.

Fabrics Made from Stone, from Spun Glass and Paper.

The Russians are manufacturing a fabric from the fibre of a filamentous stone from the Siberian mines, which is said to be of so durable a nature that it is practically indestructible. The material is soft to the touch and pliable to the extreme, and when soiled can be placed in a fire to be made absolutely clean.

Iron cloth is largely used to-day by tailors everywhere for the purpose of making the collars of coats set properly. This cloth is manufactured from steel wool and has the appearance of having been woven from horsehair.

Wool not the product of sheep is being utilized abroad for the making of men's clothing. This known as "limestone wool" and is made in an electric furnace. Powdered limestone mixed with certain chemicals is thrown into the furnace and after passing through a furious blast, it is tossed out as fluffy white wool. When it comes from the furnace the wool is dyed and made into lengths like cloth. A pair of trousers or a coat made of this material cannot be stained, it is not damaged by grease, and it is as flexible as cloth made of sheep's wool.

An English manufacturer has succeeded in making a fabric from old ropes. He obtained a quantity of old rope and cordage, unravelled it and wove it by a secret process into a kind of cloth. The resultant material he dyed a dark brown. A suit of clothes made from this cloth was worn by the manufacturer himself, and it is said that he has a large trade in this line in the British colonies.

A novelty in dress for women is spun glass cloth, which may, it is said, be had in white, green, lilac, pink and yellow shades. The inventor of this fabric was an Austrian and his invention was said to have resulted in the production of a material as bright and flexible as silk. The first lady to wear a gown of this material was of royal rank. It was of a very delicate shade of pale lavender shot with pink and its peculiar sheen reminded her admirers of the sparkle of diamond dust.

Paper clothes were worn by the Japanese troops, who found them very serviceable and much warmer than those of cloth. Paper dresses, gowns, hats, shoes and similar articles of attire are now being turned out by the carload in European countries. The paper wharf of these articles is made in the "blotter" variety, and after being treated by a new process is dyed in various colors or printed with a pretty floral design.

Even gloves are made of paper, the principal claim to its advantages being that they are susceptible of being cleaned many times.—From Tit-Bits.

BURIAL OF ENGLISH KINGS.

"Never Feared Sight of Death"—Fifteen in Westminster Abbey.

Of English sovereigns since the conquest, fifteen are buried in Westminster abbey, Henry III being the first and George IV the last. Eight kings are buried in provincial towns and cities—William Rufus in Winchester cathedral, Edward I at Gloucester, Henry VII at Canterbury, Stephen at Faversham, John at Worcester, Richard III at Leicester and Edward V somewhere in the tower of London. Henry VI was first buried at Windsor, and later Edward IV, Henry VIII and Charles I, before George III constructed the family vault in which he himself and his sons, George IV and William IV, are entombed. Five English sovereigns are buried on foreign soil: William the Conqueror at Caen, Henry I and Richard of the Lion Heart at Fontenay, James II in Paris, and George I.

"The kings of England," Dean Stanley observed, "never seem to have feared the sight of death." He contrasted the burial of the Hapsburgs and the members of the house of Savoy far from their palaces, and, above all, the fact that the kings of France never went to St. Denis except on their last journey. Versailles, his residence, because from the terrace of St. Germain's he could see the towers of his last resting place. But "the Anglo-Saxon kings had for the most part been buried at Winchester, where they were crowned and where they lived."

"The English kings, as soon as they became truly English, were crowned, and lived and died for many generations, at Westminster; and ever since they have been interred elsewhere it is still under the shadow of their grandest royal residence, in St. George's chapel or in the precincts of Windsor castle. Their graves, like their thrones, were in the midst of their own life and of the life of their people."—London Chronicle.

An Apple Breakfast.

"The invitations were written on the backs of rose-colored apples cut from stiff paper and water-colored," says the Woman's Home Companion for August. "Instead of place-cards at each cover there was for a souvenir, a china pepper and salt shaker, the shape and color of a red apple, the whole mounted on a green majolica apple-leaf."

"Chopped pineapple and cherries served in glasses formed the first course. This was followed by a delicious fluffy omelet garnished with crisp bacon and sliced fried apples dusted with spice. Potatoes fried in tiny cubes, English mussels and toast were passed. There was a salad and chopped celery and Brazil nuts in apple cups. Then came apples cooked until transparent in a rich syrup flavored with green finger root, and dotted with white cake."

"Coffee was served in the library; after which a silver cake basket piled high with red and white apples was passed to the guests. The apples were candy boxes, and on opening them we found a tiny pencil and card, on which was the following guessing game, the answers being the names of varieties of apples: 'A dainty food (Crab). Very sharp. (Thorn). A favorite color for shoes. (Russet). A great river in North America. (St. Lawrence). An excellent drink. (Cider). A man's name. (Jonathan). A warm coat. (Astrakhan). An arctic explorer. (Belvidere). Always carried by men. (Adam). One of the months. (May). Enjoyed by children. (Snow). A famous body of water. (Dead Sea). A tree liked by Ruskin. (Pine). The greatest thing in the world. (Love)."

"The first prize was a beautiful fruit-plate with a hand-painted border of apples. The consolation prize was a very large candy apple."

Boys Can Make Money
picking up bones and sending them to us. We pay 45 cents per hundred for almost anything in the bone line, if dry. For clean, dry, boiled butchers' or house bones we pay as high as 85 cents per hundred. At these prices we pay the freight and carry all stations on ship. Lots of 200 pounds or more. Ship in barrels or cheap boxes.

Come here to get the genuine Stomach-Rite, as we are agents for this city.

Burt H. Wells, Barre, Vt.

800 GO TO NOVA SCOTIA.

Take Up Farm Land and Have \$325,000 Capital.

Washington, July 29.—Strenuous efforts put forth by the Canadian government to induce farmers to settle in the province of Nova Scotia are meeting with more success this year than formerly, according to a report to this government by Consul-General James W. Bagdale of Halifax.

Up to May 12 the total immigration to the province for this year totalled 800 persons. Of these there were 320 farmers and their families, 200 of them experienced farmers or men with sufficient capital to invest in farmland. Seventy-three of the immigrants had capital aggregating \$250,000; 10 had capital amounting to \$10,000 and over, and 23 had capital amounting to sums varying from \$1000 to \$10,000.

OILED MAN BURNED UP.

Anointed Himself With Kerosene to Keep Mosquitoes Away.

New York, July 29.—Lorenzo Viali, an Italian laborer known to his fellow workmen as "Happy," was burned to death on Tuesday night in his shanty at the quarry of the New Jersey Trap Rock company on Snake hill. He was in the habit of keeping a smudge fire going during the night to smoke out mosquitoes. He also rubbed kerosene on his hands and face as a further protection against the attacks of the pests.

An explosion was heard in the shanty and a moment later the place was in flames. Viali's charred body was found in the ruins. It is believed that a can of oil exploded as he was pouring kerosene on his face.

Napoleon's Grit

was of the unconquerable, never-ay-die kind, the kind that you need most when you have a bad cold, cough or lung disease. Suppose trachea, cough syrups, cod liver oil or doctors have all failed, don't lose heart or hope. Take Dr. King's New Discovery. Satisfaction is guaranteed when used for any throat or lung trouble. It has saved thousands of hopeless sufferers. It masters stubborn, obstinate coughs, hemorrhages, la grippe, croup, asthma, hay fever and whooping cough and is the most safe and certain remedy for all bronchial affections. \$6.00. Trial bottle free at the Red Cross Pharmacy.

Many ill come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver and purifies the blood.

Itching, torturing skin eruptions disappear, anny, drive one wild. Don't's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

After a heavy meal, take a couple of Doan's Backache and give your stomach, liver and bowels the help they will need. Regulate freely, regular passages of the bowels.

Everybody's friend—Dr. Thomas' Elettio Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, scalds. Stops any pain.

SUMMER AND FALL

Top-dressing and Seeding Down.
Many farmers are finding it to their advantage to seed down during the summer and fall, claiming that by so doing they are apt to get a much better "catch" than they do when they follow the usual practice and seed down in the spring.

The same is true regarding top-dressing grass land. Some of the most progressive farmers put on top-dressing immediately after haying, with perhaps a small application of nitrate of soda the following spring.

If you will send your name and post office address to Carroll S. Page, Hyde Park, Vt., he will send you free, post-paid, several formulas for mixing fertilizers especially adapted to top-dressing and fall seeding, together with prices of ingredients, full directions for mixing, etc. These formulas have been approved by the Vermont experiment station and will be found thoroughly reliable.

NOTICE TO TAXPAYERS.

City Treasurer's Office, Barre, Vt., July 11, 1910.

The tax bill of the city of Barre for the present year has been placed in my hands for collection; said tax bills are payable at this office on or before August 10, 1910.

On all taxes unpaid at this date, five per cent, and ten cents for a warrant (if added), and the same turned over to the constable for collection, together with the regular officers' fees, viz, eight per cent, and fifty cents.

Remember that August 10, 1910, is the last date that you can pay your taxes without the additions above enumerated.

James Mackay,

City Treasurer.
